

December 18-21, 2006, Potsdam

The Gravitational Wave Data Analysis Workshop is an annual meeting devoted to data analysis for current and future gravitational wave detectors, and studies of potential gravitational wave sources. The workshop is organized by the Max Planck Institute for Gravitational Physics (Albert Einstein Institute) and will take place at the Dorint Novotel in Potsdam Sanssouci.

Topics:

- Status of GW detectors
- Detector Characterization
- Inspiral Searches
- Stochastic Background Searches
- Continuous Wave Searches
- Burst Searches
- LISA Data Analysis
